Urban spaces, large public areas and shopping centers have become integral parts of our lives. Then, why not turning them into a domestic environment where social life can develop in full comfort?

This concept has prompted Diemmebi to think of URBANTIME, a philosophy by which it realizes and proposes its outdoor collections designed by Alberto Basaglia and Natalia Rota Nodari.

Zeroquindici.015, completely made of metal, is characterized by a simple round pipe which can be bent and coupled in several ways, thus taking different shapes and allowing countless classical as well as unconventional compositions.

Ventiquattre.h24, made of steel and aluminum staves, reinterprets classical wooden and metal benches to suggest new types of use.

Both product ranges are conceived for outdoor as well as indoor spaces.

All the series are designed and created to be completely recyclable and fully maintenance free.
ZEROQUINDICI.015 CUBO - CUBE
ZEROQUINDICI.015  PANCA PIANA - FLAT BENCH
ZEROQUINDICI.015  PANCA PIANA CONCAVA O CONVESSA - CONCAVE OR CONVEX FLAT BENCH
