

Ribaltino Tilt

Folding table with small dimensions, light and functional thanks to its infinite accessibility. Thanks to a three-way die-cast aluminium joint and four calendered steel tubes, an elegant table can be created in just a few moments to be easily inserted wherever there is a need for support. Also available in the fixed version and in two different heights. Metal structure painted with polyester powders. HPL top available in both the round and square version. Ideal for contract spaces as bars, restaurants and waiting rooms.
