

.h24 TABLE Design Alberto Basaglia Natalia Rota Nodari

The essential concept of this table with its lightweight, yet sturdy structure, stemming from an in-depth design of shape and practicality, is to produce a versatile product that elegantly adapts to any need. Can be paired with the Miami sun shade.

Hot-dip galvanized steel metal structure. Epoxy powder painted aluminium slats in different colours or decorated with heat transfer film for a natural ash wood grain effect. Ready-equipped for fastening to the ground with bolts or joined together using steel plates.
