

.H24 TABLE + INTEGRATED BENCHES Design Alberto Basaglia Natalia Rota Nodari

A solution with an undeniably airy feel, conjured up by the bars which link the various elements of the composition. This solution, which is ideal for public spaces, provides rapid access to the benches, making it ultra-easy to sit down. Drilling holes in the ground is an optional choice, thus respecting the environment in which it is placed. Can be paired with the Miami sun shade.

Hot-dip galvanized steel metal structure. Epoxy powder painted aluminium slats in different colours or decorated with heat transfer film for a natural ash wood grain effect. Ready-equipped for fastening to the ground with bolts or joined together using steel plates.

DIMENSIONS
