

.026 BENCH WITH BACKREST Design Alberto Basaglia Natalia Rota Nodari

The sturdiness of metal combined with a quest for simplicity has resulted in the creation of a unique, one-of-a-kind collection. With its stackable, modular, colourful benches, suitable for the most diverse settings, .026 certainly does not go unnoticed. An innovative project, created as a tribute to the 25th Winter Olympic Games and available in a variety of sizes (180-120-60 cm). .026 will also be supplied standard in the new golden yellow and baby blue colours, for a fresh look and an invitation to create modular compositions for unique projects. Hot-dip galvanized steel has been used for the outdoor version.
