

.026 FLAT BENCH Design Alberto Basaglia Natalia Rota Nodari

Cortina.026 is a stackable bench with an archetypal taste, with minimal, manageable and functional dimensions, that can be stored easily in a closed space when not in use. It has a strong impact and aesthetic appeal, and is suitable for outdoor public spaces where it represents a secure shared seat thanks to its ground-fixing system. The Cortina.026 bench is available in various sizes (180 and 120 cm) and is completed by an armchair (of 60 cm). Amongst the pluses of Cortina.026 are its modularity and its ability to be highly customized including the choice of colour. Architects and designers can, in fact, choose the preferred shade from the RAL folder. The new golden yellow and baby blue are available as standard for a fresh, contemporary setting. Hot-dip galvanized steel for outdoor use version.
