

BUSY ROCKING CHAIR

Design in full “form follows function” style. Equipped with a “polka dot” seat, obtained by subtracting aluminium circles from its surface, Busy not only has a pleasant look, but it is light and easy to handle. The body is designed to prevent the stagnation of water in case of outdoor use, greatly reducing the risk of deterioration. The monocoque seat in moulded aluminium is innovative, assembled through a special technology that allows the sheet to be wrapped around the rod.
